

ILLIA ZAHARENKO

FRONT-END DEVELOPER

Ukraine | [Portfolio](#) | zaharenkoila19@gmail.com | [Linkedin](#)

PROFILE SUMMARY

Frontend developer with commercial experience in creating and supporting production web applications. I work on scalable, high-performance, and user-friendly interfaces with a focus on code quality and long-term support. I am responsible for integrating the frontend with backend logic, APIs, and the full cycle of functionality implementation, from development to optimization and release. I am comfortable working in a team environment and focused on delivering stable results for the product.

TECHNICAL SKILLS

- Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS
- Frontend: React.js, Next.js, Zustand, Tailwind CSS, Material UI, Bootstrap
- Backend Basics: Node.js, Express
- Databases: MongoDB, PostgreSQL, Firebase Firestore
- Integrations & Auth: REST API integration, OpenAI API, Authentication (JWT)
- Tools & Platforms: Git, GitHub, Vercel, Cloudflare (DNS, domains, image storage)
- Concepts: Responsive Design, Performance Optimization, SEO

PROFESSIONAL EXPERIENCE

Frontend Developer 06/2025 - 11/2025
NDA Project Remote

AI-powered Book Generation Platform (NDA)

Languages & Technologies: Next.js, TypeScript, Tailwind CSS, Next.js API Routes, PostgreSQL, JWT Authentication, AI content generation APIs, PDF / DOCX generation libraries, Git

Accomplishment: Worked on an AI-powered book generation platform with complex, configuration-driven frontend workflows. Led a large-scale frontend refactoring effort, improving code structure, readability, performance, and long-term scalability. Optimized frontend performance and SEO to improve page load speed and indexing. Implemented PDF and DOCX export features using third-party libraries.

Frontend Developer (with Backend Responsibilities) 11/2024 - Present
Freelance Remote

Various Client Applications

Languages & Technologies: React.js, Next.js, TypeScript, JavaScript (ES6+), Zustand, SCSS, BEM methodology, Tailwind CSS, Material UI, MongoDB, PostgreSQL, JWT Authentication, GitHub, Vercel, Cloudflare

Accomplishment: Delivered multiple client web projects, including websites and web applications. Implemented API integrations and authentication flows using modern frontend and backend practices. Focused on responsive UI development, performance optimization, and SEO improvements. Collaborated directly with clients to refine requirements and ensure timely delivery.

Front-end Developer 03/2023 - 09/2024
Tresor.tech Remote

Client Web Projects (Outsourcing)

Languages & Technologies: React.js, Next.js, TypeScript, JavaScript (ES6+), Zustand, SCSS, BEM methodology, Material UI, Vercel

Accomplishment: Developed and delivered multiple client-facing web projects, including landing pages and marketing websites. Built responsive and cross-browser interfaces with a focus on performance and SEO. Implemented reusable UI components to speed up development across short-term projects. Collaborated with designers and project managers to deliver features within tight deadlines.
